

# FRENCH

**The Original** - Designed over 20 years ago by ELA, this classic lantern has remained a favorite among lighting professionals and homeowners alike. Today, ELA's original *French* lantern remains the best for aesthetics and quality. While others have tried to duplicate this look while cutting corners, ELA has refused to compromise the integrity of this timeless piece. Where some offer very shallow detail in their product, we have maintained deep, clean cuts in our castings. There are many French style lanterns but, side by side, there is no comparison to an ELA *French* lantern.

Standard arm may be inverted to reduce the distance from the top to the j-box.
