The Hand-Crafted Arm -

The detail in this hand-crafted arm is what makes the *El Capitan* a one of kind design. The solid brass arm is constructed from a combination of formed tubing, cast fittings, and stamped leaves. Like the rest of the *El Capitan*, the arm is meticulously built by an experienced craftsman. And like all the other products found in this catalog, the *El Capitan* is an original ELA concept, designed by ELA's very own in-house designers. You can count on that from ELA.

Remember!
ELA builds custom lighting. We are able to modify our standard products, apply special finishes, or provide an assortment of lenses. Contact your ELA Rep. or the factory for details.

CAT. NO.	MOUNTING	DIMENSIONS			LAMPS	FINISHES	LENS
		Width	Height	Projection
