

PAGEANT

Remember!

ELA builds custom lighting. We are able to modify our standard products, apply special finishes, or provide an assortment of lenses. Contact your ELA Rep. or the factory for details.

1931MNOP
(w/ beveled glass)

Hood Options:

The internal hood of the *Pageant* may be specified one of four ways; two lenses and two finishes. Either an opal (#1) or clear acrylic (#2) (glass available for some sizes) lens may be installed in the hood, giving added illumination or an uplight. It can also be closed, allowing the hood to be finished; with either the same color as the fixture (#3), or a contrasting finish (#4). With 12 standard finishes for the fixture and 20 different hood types and finishes available, there are hundreds of ways to specify the *Pageant*.
