Mediterranean HID Ordering Matrix

Mediterranean

The Mediterranean is a traditional six-sided fixture. Though several other sources offer a similar product, the Mediterranean was originally designed and introduced by ELA. The Mediterranean is a legacy and continues to be among ELA's best sellers in our traditional line of products. The Mediterranean has been installed in a multitude of sites throughout the United States, Canada and the world; including shopping malls, parking lots, government buildings, schools, libraries and many others. The Mediterranean is also often used for decorative street lighting and walkway lighting. With its classic traditional style, superior quality and durability, and high performance standards; the Mediterranean is a perfect solution to many lighting applications.

Fixture is "Buy America Act" Compliant Proudly made in the U.S.A.
